

Aircraft Chocks

NG-L

For any Aircraft Tyre

- New, patent pending development “New Generation”
- Bottom soft, non-slippery soil surface
- Upper part hard resistance form
- Fits on all aircraft tyres due to low edge
- **SECURE YOUR AIRCRAFT EVEN AT WET CONDITIONS, SLIPPERY GROUND AND DEICING FLUID**

Aircraft Chock NG 2017

Do you already know the Chocks size S for small aircraft, business jets and GSE equipment?

Airlines are increasingly demanding the chopping of GSE equipment at the aircraft. The Chocks S are small, light and fulfill exactly this purpose.
